

LEARN TO LEARN LEVEL 2

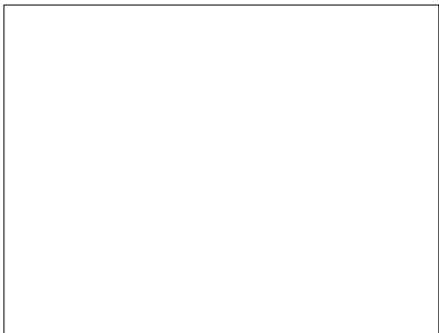

Webs, charts, maps, and organizers are important thinking tools that can help you:

- Brainstorm ideas.
- Develop, organize, and communicate ideas.
- See connections and relationships.
- Develop vocabulary.
- Guide writing processes.
- Guide review and study.
- Improve reading comprehension skills and strategies.

This section includes five different webs, charts, maps, and organizers that can be used throughout the school year. Since they can be photocopied, you can use them as many times as you need, not only for your English class, but for other subjects, too!

The web or organizer is on the front side page. On the back you will find its use, how to fill it out, suggestions for which activities can be completed with it, and a sample.
